CONTENTS OF VOLUME 87

NUMBER 1, MAY 1981

S. HASSING AND O. SONNICH MORTENSEN. The Roles of Vibronic Coupling and the Duschinsky Effect in Resonance Raman Scattering 1

DANIEL M. SWEGER AND ROBERT L. SAMS. Diode Laser Spectra of the ν_2 Band of $H_2{}^{12}CO$ and $H_2{}^{13}CO$ 18

IZABELLA FOLTYNOWICZ, JERZY KONARSKI, AND MAREK KRĘGLEWSKI. Theoretical Calculations of the Ring-Puckering Vibration for Trimethylene Oxide (TMO) and Its Deuterated Derivatives. The Rigid Model for the Large-Amplitude Ring-Puckering Vibration 29

AMELIA GARCÍA-RODRÍGUEZ AND J. C. DECIUS. Absolute Infrared Intensities in Some Metal Carbonyls and the Charge Flux Model of the Dipole Derivatives 41

M. AUBERT-FRÉCON AND C. LE SECH. Prolate-Spheroidal Models for Mono-excited States of Diatomic Molecules. Application to H_2 56

B. COQUART AND J. C. PRUDHOMME. The $^1\Sigma^+ - X^1\Sigma^+$ Transition of the PN Molecule 75

J. A. COXON AND M. A. WICKRAMAARATCHI. The $B^3\Pi(0^+) \rightarrow X^1\Sigma^+$ Emission Spectrum of ^{79}BrF and ^{81}BrF in the Range 6250–8700 Å: Rotational Analysis of Bands in the $v' = 0, 1, 2, 3, 4$ Progressions, and Merged Molecular Constants for the $X^1\Sigma^+$ and $B^3\Pi(0^+)$ States 85

FAKHRUDDIN AHMED AND EUGENE R. NIXON. Laser-Induced Emission from Te_2, TeSe, TeS, and SeS in Argon Matrices 101

JOSÉ L. ALONSO. Microwave Spectrum, Conformation, and Dipole Moment of 4-Thiacyclohexanone 110

T. BERGEMAN AND D. COSSART. The Lower Excited States of CS: A Study of Extensive Spin–Orbit Perturbations 119

C. AMIOT, J.-P. MAILLARD AND J. CHAUVILLE. Fourier Spectroscopy of the OD Infrared Spectrum. Merge of Electronic, Vibration–Rotation, and Microwave Spectroscopic Data 196

N. PAPINEAU, J.-M. FLAUD, C. CAMY-PEYRET AND G. GUELACHVILI. The $2\nu_2$, ν_1 and ν_3 Bands of $D_2{}^{16}O$. The Ground State (000) and the Triad of Interacting States {(020), (100), (001)} 219

C. CAMY-PEYRET, J.-M. FLAUD, AND R. A. TOTH. The Interacting States (020), (100), and (001) of $H_2{}^{17}O$ and $H_2{}^{18}O$ 233

E. D. LIPP AND C. J. SELISKAR. The 2644-Å Band System of Fluorobenzene. The Cold Band Spectrum 242

E. D. LIPP AND C. J. SELISKAR. The 2644-Å Band System of Fluorobenzene. The Hot-Band Spectrum 255

MICHAEL DULICK, ROBERT W. FIELD, AND J. CL. BEAUFILS. Rotational and Hyperfine Analysis of the 0, 0 Band of the PrO XX System 268

MICHAEL DULICK, ROBERT W. FIELD, J. CL. BEAUFILS, AND J. SCHAMPS. The Electronic Spectrum of PrO. Energy Linkages, Rotational Analysis, and Hyperfine Structure for Systems XVII and XXI 278

A. S-C. Cheung, R. M. Gordon, and A. J. Merer. Laser-Induced Fluorescence and Discharge Emission Spectra of FeO; Evidence for a $^5\Delta_i$ Ground State 289

Notes

AUTHOR INDEX FOR VOLUME 87 588
SUBJECT INDEX FOR VOLUME 87 590

Modern Physics in Chemistry

Volume 2
edited by E. Fluck and V.I. Goldanskii
January 1980, xiv + 638pp., £37.00 (UK only) / $85.50, 0.12.261202.7

The techniques described in this book apply to such fields as X-ray photoelectron spectroscopy, neutron diffraction, secondary ionmass spectrometry, Mössbauer spectrometry and nuclear magnetic resonance spectroscopy. The volume aims to emphasize the contributions that the techniques described have made to the solution of chemical, physico-chemical and biological problems, rather than to detail methodology.

Molecular Association

Including Molecular Complexes — Volume 2
edited by R. Foster
1979, xviii + 490pp., £42.00 (UK only) / $98.00, 0.12.262702.4

Contents — *Noboru Mataga and Michael Ottolenghi*: Photophysical aspects of exciplexes. *J.M. Pearson, S.R. Turner and A. Ledwith*: The nature and applications of charge-transfer phenomena in polymers and related systems. *R.J. Laub and C.A. Wellington*: Study of complexation phenomena by gas-liquid chromatography. *J. Yarwood and R. Arndt*: The study of intermolecular interactions in the liquid phase using infrared Raman band shapes and intensities. *Milton Tamres and Robert L. Strong*: Contact charge-transfer spectra. **APL 0038**

An Introduction to Spectroscopy for Biochemists

edited by S.L. Brown
July 1980, xvi + 404pp., £16.60 (UK only) / $38.50, 0.12.137080.1

This book aims to provide an understanding of the established and potential value of spectroscopy in solving problems of biological and medical interest. The principles of each technique discussed are presented in a straightforward and precise, yet largely non-mathematical style. Emphasis has been placed on a wide survey of the application and scope of the various branches of spectroscopy.

Modern Aspects of Microwave Spectroscopy

edited by G.W. Chantry
1979, xiv + 514pp., £38.80 (UK only) / $89.50, 0.12.168150.5

This book serves a dual purpose. First, in bringing together experts from different branches of microwave spectroscopy, it should go a long way towards reducing the isolation in which recent research has been conducted and reported. To this end a comprehensive bibliography has been included at the end of each chapter. Secondly, each topic receives extensive critical discussion, which forms an up-to-date commentary on the progress in that area. APL 0108

How To Comply With The New Copyright Law

Libraries everywhere have found the easy way to fill photocopy requests legally and instantly, without the need to seek permissions, from this and over 3000 other key publications in business, science, humanities, and social science.

Participation in the Copyright Clearance Center (CCC) assures you of legal photocopying at the moment of need. You can:

Fill requests for multiple copies, interlibrary loan (beyond the CONTU guidelines), and reserve desk without fear of copyright infringement.

Supply copies simply and easily from registered publications. The CCC's flexible reporting system accepts photocopying reports and returns an itemized invoice. *You need not keep any records,* our computer will do it for you.

The Copyright Clearance Center is your one-stop place for on-the-spot clearance to photocopy for internal use. You will never have to decline a photocopy request or wonder about compliance with the law for any publication registered with the CCC.

For more information, just contact:
